

ISWIM Workshop Saudi Intermobility Expo 2025

ISWIM Workshop at Intermobility Expo '25

Introduction

The authorities of several countries in the Gulf region are involved with the implementation of Weigh-In-Motion (WIM) systems for various applications including for direct, automatic weight enforcement. At the same time, ISWIM Vendors are active in the region providing the next generation of WIM solutions. In cooperation with the Saudi Intermobility Expo ISWIM has taken the initiative to organize a dedicated WIM workshop bringing together key stakeholders from transport authorities, road safety regulators, and mobility solution providers across the Gulf region.

Workshop Agenda

The workshop will take place within the official program of Saudi Intermobility Expo 2025 at the Riyadh Front Exhibition and Convention Center in Saudi Arabia. The workshop will be held on Wednesday December 3rd at 13:00-15:00 AST. Participation in this in-person event will be free of charge.

The draft agenda for the workshop is:

Time	Speaker	Topic
13:00	Andy Lees ISWIM, UK	Welcome and introduction to ISWIM
13:20	Hans van Loo ISWIM, Switzerland	Introduction to Weigh-In-Motion, technology, applications and advantages.
13:40	Hans van Loo ISWIM, Switzerland	Conditions and challenges for the implementation of WIM for direct weight enforcement
14:00	Brendan Ezeanowi Quarterhill, Canada	Show Case Project WIM for weight enforcement
14:15	Matija Mavric Cestel, Slovenia	Show Case Project WIM for weight enforcement
14:30	Benjamin Zhang VanJee, China	Show Case Project WIM for weight enforcement
14:45	Questions & Answers	Experiences with the implementation of WIM systems for direct weight enforcement

Our Society

The International Society for Weigh-In-Motion (ISWIM) is an international non-profit organization, founded in 2007, legally based in Switzerland. It is an international network of and for people and organisations active in the field of Weigh-In-Motion (WIM). Membership of ISWIM is free of charge for individual members.

Purposes

The purposes of ISWIM are:

- To support advances in and the more widespread use of WIM technologies and the applications of WIM data.
- To disseminate knowledge and understanding of WIM by organising conferences, seminars, training courses and other events.
- To promote and support international research and development projects on WIM.
- To initiate or participate in the development of standards relating to WIM and its applications.
